

Welcome to the 2019-20 School Year!

Our *K-3rd Grade Core Academic Track* provides delight-filled, hands-on unit studies using the best in children's literature. We aim to launch learning in the classroom so that it can be connected and expanded at home in the areas of Language Arts, Science, Social Studies, Bible, and Art. All families have access to grade-specific Home Lesson Plans (HLPs), which provide a learning guide for each book, including project ideas, discussion questions, resource hyperlinks, and assignments.

At the elementary school level, Circle requires five core subjects to be taught – Language Arts, Math, Science, Social Studies, and Bible. However, Language Arts should be divided into categories in order to ensure complete coverage of the subject. Here is a summary of what our K-3rd Core Track covers (and what it does not):

Language Arts: Reading Comprehension, Writing Composition, Grammar & Vocabulary | Included in Home Lesson Plans; no additional curriculum needed.

Science | Included in Home Lesson Plans; no additional curriculum needed.

Social Studies | Included in Home Lesson Plans; no additional curriculum needed.

Bible | Included in Home Lesson Plans; no additional curriculum needed.

Math | NOT provided in Core Home Lesson Plans. Parents responsible for instruction and curriculum.

Language Arts: Reading Instruction/Phonics, Handwriting & Spelling | NOT provided in Core Home Lesson Plans. Parents responsible for instruction and curriculum.

K-3rd Core Track academic requirements:

- Purchase or borrow the books for your child's grade
- Have your student regularly attend class
- Complete 1-3 HLP assignments per subject area, per week at home
- Add Math, Reading, Handwriting, and Spelling curriculum and instruction at home

Parent Partnership

Through Home Lesson Plans (HLPs), our classroom teachers provide assignments to complete at home and opportunities for students to present what they are learning each week. In class, teachers launch learning and celebrate student work, but they do not grade assignments.

At home, we invite parents to use our HLP resources to guide the early elementary years of their children. Depending on a student's grade level, parents will need to round out language arts by selecting curriculum. Also, parents are responsible for selecting and teaching a math curriculum. Parents grade all student work and complete monthly reports in compliance with Circle policy.

Please see the included list of our suggested at-home curriculum.

Have a Great Summer!

We look forward to seeing you at our Lower School Orientation!

Welcome to Kindergarten!
